## CHIEF KERR ASKS FOR MORE POLICE

## Declares Present Force Inadequate and Suggests Increase in Men's Pay.

Members of the board of safety Friday morning considered the communication tendered them by Chief of Police Millard F. Kerr in which he points out that the police officers in the city of South Bend are underpaid, that there is not a sufficient number of men on the department to carry out its work efficiently. According to the figures of the police chief the patrolmen here are employed 535 legal working days of eight hours each during the year, for which they received \$360 or \$1.07 per legal working day of eight hours. Chief Kerr also pointed out that the last increase in salary was given on Jan. 1, 1907, and that during the last five years living expenses have increased nearly one-half.

Chief Kerr's letter.

Chief Kerr's communication to the board of safety follows:

April 21st, 1916.

To the Honorable Board of Safety of the City of South Bend, Ind., Gentlemen:

I herewith submit to you a report showing the necessity of increasing our present police force and the need of more men on the department, and also as to the salary of a police officer who is at present underpaid as shown by the following:

The following shows the size of each post of the city, which is covered by the officer:

No. 1—13 blocks east by 11 blocks north; 14 blocks.

No. 2—11 blocks east by six blocks south; 66 blocks including River Park.

Down town district between Lafayette and Division st., and between Lafayette and the river, except No. 6, which is west of the river to Taylor st., and from Lasalle av. to Washington av.

No. 7—6 blocks east and west by 7 blocks north and south; 42 blocks including Navarre place.

No. 8—19 blocks east and west by 10 blocks north and south; 180 blocks.

No. 9—6 blocks east and west by 5 blocks north and south; 30 blocks.

No. 10—5 blocks east and west by 11 blocks north and south; 55 blocks.

No. 11—15 blocks east and west by 7 blocks north and south; 105 blocks.

No. 12—27 blocks east and west by 8 blocks north and south; 216 blocks.

No. 13—28 blocks east and west by 7 blocks north and south; 196 blocks.

No. 14—5 blocks east and west by 7 blocks north and south; 35 blocks.

No. 15—27 blocks east and west by 9 blocks north and south; 243 blocks.

No. 16—3 blocks east and west by 8 blocks north and south; 24 blocks (Slav and Hungarian).

No. 17—6 blocks east and west by 5 blocks north and south; 30 blocks (Lake Shore beach).

No. 18—6 blocks east and west by 5 blocks north and south; 30 blocks.

No. 19—8 blocks east and west by 23 blocks north and south; 184 blocks.

No. 20—17 blocks east and west by 13 blocks north and south; 221 blocks.

The officer on No. 8 post is also traveling No. 1, making a total of 222 blocks besides Navarre place.

The officer on No. 19 is also traveling No. 20, making a total of 405 blocks besides a strip 200 feet wide from Taylor st. to Ernsperger st., and another strip 400 feet wide and a mile south of Bowling av. on S. Michigan st.

The legal working day in this state is eight hours, or 2,920 hours per year. The average time put in by a patrolman is 12 hours or 4,236 hours per year, or 170 extra hours, or \$35 days per year (extra hours a day). Salary of \$900 per year divided by 355 days gives officer a salary of \$1.07 per legal day of eight hours. The last increase of salary given department was Jan. 1, 1907. During the last five years living expenses have increased nearly one-half.

The officers' complete outfit of uniform to start with costs him between \$65 and \$70. Patrolmen are required to all kinds of work in emergencies, making that one item of importance in the line of expenses.

Trusting that your honorable body will see by the above the necessity of providing more men for the department and also increase in pay for the officers, I am,

Yours respectfully,

MILLARD F. KERR,

Chief of Police.

Alfred Leusch, patrolman, was fined \$10 for failure to notify Chief Kerr that he would not be on duty last Wednesday night. Leusch told the board that he was called by Laporte on account of the illness of his grandmother and had told relatives here to notify the police chief that he would be unable to appear for duty.

John Steel was appointed park policeman for Howard park.

## UNITED STATES TO GIVE NAVAL TRAINING CRUISE

Recruits Will Be Given Instruction For Month on Board Battleships.

Citizens will be offered naval training courses as well as military training this summer, the navy department having arranged a cruise to begin on Aug. 15 and lasting until Sept. 12. The course is to be given on board reserve battleships and persons in this vicinity who care to take the cruise may enlist through the local recruiting office in the postoffice building.

Recruits must be citizens of the United States between 19 and 45 years old and must be able to pass a prescribed physical examination. Unless the recruit is 21 years old, the consent of the parents or guardian will be necessary. An applicant for enrollment in the course must be able to demonstrate that he possesses some nautical knowledge or experience or that he has had some technical training which would fit him for service in the navy. Six months' experience in any one of the following trades will be considered sufficient qualification for enrollment: Machinist, boilermaker, plumber, shipfitter, cooper, carpenter, electrician, engineer, fireman, telegrapher or radio operator.

Applications must be made to the recruiting officer not later than June 1. The objects of the course are: "To help equip properly qualified men to act as reserves in time of war or national emergency by giving them a course of training on warships under naval officers and naval discipline; to foster a patriotic spirit and give to civilians some knowledge of the navy and the naval requirements of the country; to interest civilians in naval matters so that by taking future courses of training and by study men may qualify for acting commissions after taking the necessary examination."

Each man when reporting on shipboard will be required to deposit \$30, which will cover the cost of his board for the cruise and provide him with the necessary outfit of clothes. The applicant must also pay his transportation to and from the ship.

## ADVISED TO STAY AWAY

Judge Tells Man He Should Not Work at Oriental Inn.

Martin Horning was sentenced to 30 days in jail Friday morning by Judge Warner upon a charge of intoxication. It was brought out in court that Horning has been working at the Oriental Inn cafe, 113 N. Main st., next to the Arndt saloon.

"Don't you know that you should not work near saloons and in such places?" Horning was asked by the judge. "You have no business around a place where booze is sold."

Horning denied that he had been drinking but was sentenced to the county jail for the next month.

## FINK IS REINSTATED

Physician Wins Legal Right to Practice Medicine.

Following an order from the St. Joseph circuit court, Dr. H. A. Fink has been reinstated to the practice of medicine in Indiana by the Indiana Medical board. The court restored a license to the physician. The light of Dr. Fink for vindication in the local courts has been hanging fire for a number of years.

## FINED FOR SPEEDING

Mrs. Paul Prass Pays City \$1 and Costs for Offense.

Mrs. Paul Prass, 501 E. Jefferson Blvd., paid a fine of \$1 and costs in city court Friday morning for exceeding the speed limit. Mrs. Prass did not appear in court.

## OFFICER RUNS DOWN BURGLAR

## Earl Parker Gets Fleeing Steve Putz Who is Caught in Act.

Steve Putz, 809 S. Chapin st., possessor of a police record, was arrested shortly before midnight Thursday by Officer Earl Parker after a heated chase in which Putz endeavored by might and main to escape his pursuers.

According to E. Bednoswicz, 60 years old, Putz tried to break into his home, 2110 Bruce st., between 11 and 12 o'clock Thursday night. Police headquarters was notified to the effect the robbery had been attempted and that the intruder had been captured. Officers Kimmerly and Parker were dispatched in the patrol.

Parker Takes Up Chase.

Arriving at the Bruce st. address, Parker found Bednoswicz, but the prisoner had escaped, and Rudolph Cowdens, son-in-law of Bednoswicz, was seen in hot pursuit of a rapidly moving figure. Parker took up the chase, and as he ran, saw both men go down in an exchange of blows. Before Putz could regain his feet, Parker had him and held him to the ground until the patrol arrived.

According to Bednoswicz, he was awakened suddenly by a hand on his face, and looking up saw that a man was trying to get through a window at the head of his bed. Rushing from the house with Cowdens, Bednoswicz was able to halt the intruder and held him while Cowdens hurried to a telephone. Putz, however, escaped and started across a field, the elder man at his heels.

Barefoot Running Painful.

Barefoot, the going was too painful for the older man and he had to give up the chase as the son-in-law returned from a neighbor's house. A short time later the police patrol arrived and a capture was effected.

Putz has served time, it is said at police headquarters, and is the man who last winter threatened Officer Tholander with a knife when the minute man of the department caught him in the act of entering a S. William st. house.

He will be arraigned in city court Saturday morning.

## DISMISSES CHARGE

City Attorney Holds Motorist Can Go to Left of Street Car.

City Atty. Eli Seebert held in city court Friday morning that a motorist is privileged to pass on the left side of a street car which is discharging passengers if no other vehicle is coming toward the automobile in question. Upon these grounds the charge against J. D. Martin of violating the city traffic ordinances was dismissed by Judge Warner. Martin was arrested by Motorcycle Officer Omsstead, who testified that Martin drove his car around the left side of a street car discharging passengers. The city attorney held that under the state law there was no violation. Both Motorcycle Officers Omsstead and Wesolek declared that the city attorney was wrong in his conclusion.

## "PRETTY GOOD FELLOW"

Niles P. Lund Admits That He is Such to Judge Warner.

"How can you keep your job and do so much drinking?" was the question Judge Warner put to Niles P. Lund in city court Friday morning. "Well, judge, I guess I am a pretty good fellow," came the answer.

Lund was charged with intoxication and the judge suspended him \$1 and costs when he noted the pitiable condition of the defendant. Lund is the man who was struck by an automobile Wednesday, sustaining severe cuts and bruises about his head and other injuries. Lund had been drinking, according to the police, when he staggered in front of the automobile. When in city court Friday morning one side of his face was lacerated and a large hole was noticeable in the back of his head while he walked with considerable of a limp.

PAT CROW, LATE OUTLAW, VISITING IN SOUTH BEND

Pat Crow, the former outlaw, who 15 years ago was the most notorious kidnaper and bandit, and upon whose head was a \$50,000 prize, is spending a few days in South Bend. He says that he has entirely reformed and is now living for his two children.

He is making plans for lectures in several Michigan towns and will probably give talks in this city. Next summer he intends to go on the Chautauqua circuit of which William J. Bryan is the head.

## REESTABLISHES STRONG EVIDENCE

## Defense Scores Again in South Bend Chained Plow Suit.

The defense in the South Bend Chilled Plow receivership contest Friday morning began to reestablish the testimony of its agent W. H. Walker of Milwaukee, Wis., as to the character and quality of the product produced by the South Bend concern.

On direct examination Thursday Walker said that he had few complaints to make on the manner in which the South Bend product "held up" in its territory. A rather damaging cross examination followed in which letters containing complaints that the agent had made to the company were read into evidence.

Friday morning on re-direct examination Mr. Walker's testimony was reestablished when the individual complaints mentioned in the letters read into the evidence on cross-examination were characterized by the witness as resulting from the unadaptability of certain kinds of plow to the soils in that certain region.

The fault in the plow, the witness said, was because of this rather than any defects in the plow themselves or because they were manufactured of poor material. Mr. Walker also said that these plows did not cause any loss of trade nor did they create a spirit of unfriendliness towards the South Bend concern by either the farmers or dealers.

This was probably the strongest point made by the defense in the examination of its first witness, which, if not broken down by the plaintiffs, will do much to counteract the damaging testimony introduced by the complainants that in various regions the plow produced by the local corporation had neither durability nor satisfactory wearing qualities.

## BAKING POWDER PHOTO ARTIST LANDS IN TROUBLE

James A. Spencer Held For Operating Alleged Swindle on Local Housewives.

James A. Spencer, 48 years old, giving his home as 116 W. Washington st., was arrested at 10 o'clock Friday morning on charges of obtaining money under false pretenses and peddling without a license. That Spencer has been operating a "skin game" on a number of people in South Bend is the belief of Sgt. of Detectives William Barnhart, who questioned Spencer during the afternoon.

It is asserted that Spencer has been making a canvass of the city, offering a can of baking powder for 50 cents and agreeing to enlarge a picture or photograph for the purchaser. He would dispose of the baking powder, collect the money and picture and leave the house, promising the enlarged picture and a short time. The pictures never came back and when Spencer was arrested a collection of several hundred photographs was found in his possession along with the baking powder which he was selling. According to the police Spencer purchased the baking powder at a price of \$1 for a dozen cans. He received 50 cents and a photograph in exchange.

It is expected that Spencer will be taken before Judge Warner Saturday morning. The police declare the man has been operating the alleged swindle in Toledo, O., and Adrian, Mich., and probably other cities. The police are anxious that South Bend persons from whom the man secured photographs go to the police station and identify the pictures.

## HORSE REVIEW BOOSTS FAIR RACING PROGRAM

The Horse Review of April 19 carries an interesting and complimentary paragraph in reference to the racing program and purses offered by the St. Joseph County Fair and Amusement association. It is stated that the initial fair of 1915 "caught on" in fine shape and plans are being perfected for bigger things this year.

The race meeting on Sept. 12, 13, 14, 15, 16, most favorably mentioned and the entire racing program for the five days is given. In addition to the early closers at intermittent dates, there are 12 events, purses from \$150 for county trotters, to \$600 for free-for-all, to close Sept. 2 with Seely A. Frank. On the final day, Sept. 16, the free-for-all will entertain the association offering \$100 extra to the driver who beats the state half-mile track records at both gait and consolation purses of \$400 for trotters and pacers to round out the card.

The total purses of \$10,000 is spoken of as forming the most pretentious array of race attractions that have ever been offered by a fair association in this half-mile track. Predictions are made that the events will attract horse owners with racing talent that have never before considered anything but full mile circuits. It is further added that for horsemen to overlook this meeting will be positively criminal.

With such a strong endorsement from so reliable a source as the Horse Review and with other race horse publications boasting the events in equally emphatic terms it is felt that the coming fair races will show racing stock and records that have never been equalled in any similar event.

## GEN. CARRANZA LOSING GRIP ON MEXICO POWER

(CONTINUED FROM PAGE ONE.)

It is not deluded. The governors of Sonora and Chihuahua openly assert their independence of the de facto government. The latest evidence of this is the massing of Carranza soldiers around Parral. State department advisers are that this was done without the knowledge either of Gen. Carranza or his minister of war, Gen. Obregon. This, in the view of state and war department officials, demonstrates not only the friendliness of Carranza, but his entire helplessness to control his own army.

The Carranza garrison has gone down to Parral with the avowed purpose of resisting a further advance to the south of Gen. Pershing's forces. In these circumstances army officers say the present withdrawal of the American troops would be nothing less than cowardice—a failure to meet the open defiance of irresponsible Mexicans.

## MEXICANS FIRE ON AMERICAN AEROPLANE

(CONTINUED FROM PAGE ONE.)

mobbed. Later Gen. Gutierrez's chief of staff apologized handsomely and entertained the flyer.

Chihuahua established an anti-military control. No one is permitted on the streets after midnight. Mounted guards patrol every street and byway and there is not much time wasted between their challenge of "quien vive" and the report of their Mausers. One meeting with the mounted guard, such as was experienced by the International News Service correspondent on his arrival, is enough to last the ordinary man a life time. The discovery of a Villista plot, in which 200 followers of the bandit chieftain were involved and 15 executed, drew the lines still tighter.

## Plenty of Intrigue.

There is plenty of intrigue in Chihuahua. Besides the large organizations of anti-Carranzistas, it is known in the American colony that certain men supposed to be agents and intelligent representatives of the American army command are actually spies of the Carranza government. It was in Chihuahua that vehement anti-American posters were posted on adobe walls to be torn down after several hours by the federal authorities.

Other foreigners beside the Americans charge that the de facto government has established an illegal method of taxation on all property, especially mines. One of the most influential foreigners in Mexico stated to the International News Service correspondent that the richest Mexican mine was not worth a dollar to anybody except the government. The army is to a great extent supported by raids. The International News Service correspondent saw a military escort leap from a train, descend on a herd of cattle under the guard of two vaqueros, and slaughter half a dozen heaves without any more formality than is spoken from the muzzle of a rifle. The officer in charge explained simply that his men were in need of food.

The Carranza authorities profess to be doing their best to hold the populace in check. Gen. Gutierrez offered every courtesy to the American correspondents who made an 18-hour ride in a railroad caboose from Juarez to investigate the story of Villa's death, which had been vouched for by Mexican representatives on the border.

## SAY OFFICERS AFTER QUILHOT DODGED QUARRY

(CONTINUED FROM PAGE ONE.)

peet of his being indicted by the St. Joseph county grand jury, before which investigation of his case was then pending.

Quilhot's name and his activities while master of "Mystery House" here, together with his record as a vice sluth in South Bend, Jackson, and elsewhere, along with some presentations of his vicissitudes as a fugitive from justice, and the husband of a vice-sluth, at least seven times, was injected into the Young vs. Young divorce case, when a contract between Mrs. Young, the plaintiff, and Quilhot, was introduced in evidence. Quilhot, according to the contract, agreed to secure all necessary evidence against Young, to justify a divorce, and to take his pay in one-half the alimony paid to the wife by order of the court, or other settlement Mrs. Young committed the contract, and in addition asserted that Quilhot had fled her care of a 40-acre farm near Midville, Mich.

Star's Real Sensation.

The bringing of Quilhot into the case caused a sensation in the local circuit court, due to the prominence of the parties, and the scandal in which Quilhot was involved last fall. Quilhot is pending here and at Jackson, Mich., the one here to recover certain moneys on deposit in a local bank, and said to belong to Mrs. Marian Miller Quilhot, the vice sluth's last wife, and the one at Hastings to recover for Mrs. Quilhot, the 40-acre farm at Midville, which Mrs. Young says she was beaten out of. There is, however, to be another angle to the 40-acre farm story, and that Mrs. Young got \$700 of Mrs. Quilhot's money, incident to her fleeing. The contract linking Mrs. Young's name with that of Quilhot was sprung like
